## Features

- Low maintenance closure system
- Ideal for mall, shop fronts and airports
- Design enables large spans
- Flexible to support curved layouts
- Only 42mm head room with no floor track required

## Operation

- Manual operation on all models (slide aside) no requirements for motor or springs

## Compaction

- For opening over 3000mm wide typically the panels will compact to between 11%~15% of the opening size

## Presentation

- Natural anodised as standard
- Polyester powder coat finish
